About Exhibition

ELECOMP is the greatest commercial event in Iran's Market of Electronics and Computer Products and services. Since its first edition in 1995, numerous players of this stage in Iran introduce their latest achievements in software and hardware in ELECOMP every year. The event provides a unique opportunity to the activists of this sector to negotiate the possibilities of establishing new business and technological ties to boost their business and increase their share of this huge and ever growing market. The government of Iran which is potentially among the biggest customers of this market, especially because of its plans for deployment of Electronic Government, is strongly promoting presence of Iran's electronic and computer business in international scenes and markets. It is expected that the upcoming edition of ELECOMP which is scheduled to be held between 21-24 July, 2017 provides an exceptional opportunity to the activists of this sector inside the country and abroad, to boost their business through establishing strong business links with their counterparts and equip themselves with the proper gear to effective presence and in this huge market.
